**Please contact us for available shipping methods.**

Safety Label Express specializes in providing safety labels to suppliers of Conveyors, Equipment and Machinery.

The two General Partners of our Company have both been working in the Packaging Machinery industry for over 25 years and were intrigued by the complexity and cost of the products we offer. Our goal is to make it easy for our customers to source ANSI, ISO, OSHA and other Industry compliant products at affordable prices.

We have invested in high quality printers, capable of producing very short run, on demand print-work, suitable for harsh environments.

We are able to do this at very competitive prices by keeping our "printed" inventory to a minimum and keeping our overheads very low by mainly selling our products on-line.

We appreciate your business and are looking forward to a long and pleasant relation.
